

MINISTRY OF AGRICULTURE, NATURAL RESOURCES & ENVIRONMENT
WATER DEVELOPMENT DEPARTMENT

Introduction to the project and consultant's team

Kees Bons

Team Leader

WL | Delft Hydraulics

(Launching Workshop
Lefkosia 9 May 2006)

Welcome !

- Water is Life
- Water is very important for Development
- Water is very important for Environment
- Cyprus as a member of the EU wants to live and develop in an healthy environment

- YOU play an important role in this, that is why you are here.

Why are we here ?

- The government of Cyprus has initiated a project to assist the competent authorities in implementing the EU Water Framework Directive
- Particularly, article 8, the design of a monitoring network
- Our consortium has been awarded the contract to carry out this project.
- This means that we will be working closely with YOU

So, who are we ?

from

The Netherlands

Greece

Cyprus

Greece

Cyprus

Germany

The ideal mix ?

- strong local knowledge and experience
- familiar with EU legislation and its implementation
- consortium partners know each other's strengths (and weaknesses) from previous work together
- many of us can communicate in your own language (sorry I don't)
- we have worked with you on art 5 and 6

ecologic

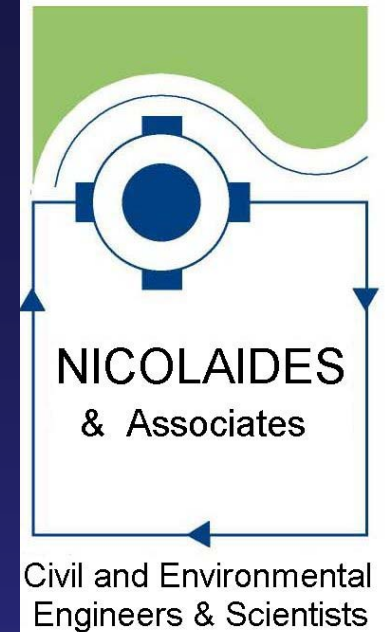

Ecologic - Institute for International and European Environmental Policy is a private not-for-profit think tank for applied environmental research, policy analysis and consultancy with offices in Berlin and Brussels, founded in 1995.

Ecologic provides policy consultancy, and animates and facilitates international policy processes in order to develop new approaches at interfaces between different policy fields, and also between different policy communities.

NICOLAIDES & Associates

The firm *Nicolaides and Associates* offers a range of professional services in the field of Environmental and Civil Engineering. The firm's goal is to provide high quality services to industry and government and to make a lasting contribution to sustainable development and protection of the environment.

Established in 1996, *Nicolaides and Associates* has worked with many governmental and private clients in Cyprus

I.A.CO Ltd.

I.A.CO Ltd is a consulting firm which specializes in the sectors of environmental management and water development. The services provided include planning, designing, assessing, operating, managing and providing technical support in projects concerning the protection of the environment as well as in hydrologic / hydrogeologic and hydraulic analyses related with water development and associated constructional work.

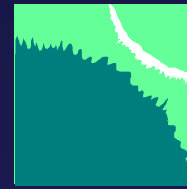

I.A.CO Ltd was established by Iacovos Iacovides, Hydrologist / Hydrogeologist and former Chief Water Engineer of the Water Development Department of the Ministry of Agriculture, Natural Resources and Environment of the Republic of Cyprus, with over 40 years of experience in Cyprus and abroad as a water resources specialist.

D. Argyropoulos & ass.

D. Argyropoulos and associates provide consultancy services in the field of environment and database development.

D. Argyropoulos and associates have been actively involved in the Consultancy Services For The Implementation Of Articles 5 And 6 Of The Water Framework Directive 2000/60/EC as well as the evaluation of results from the implementation of National Monitoring Network of Inland Water Quality in Greece

ENVECO

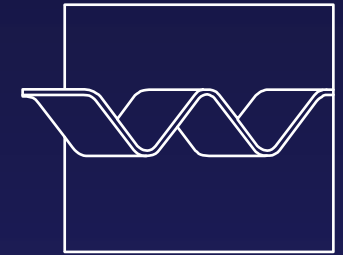

ENVECOS.A.
ENVIRONMENTAL PROTECTION
MANAGEMENT & ECONOMICS

ENVECO S.A. is a company providing special consulting services in the fields of environmental protection and economics as well as in the management of relevant works. The company was established in 1991 with the aim of offering the expertise of its key staff, engineers, biologists, economists and other specialized scientists, to the Greek and international market.

Its key staff participate in acclaimed scientific conferences and professional events, and are credited with publications in the most valid Greek and international scientific magazines. The company adopts the latest developments in computing and has broad experience in Geographical Information System applications and Computer Aided Design.

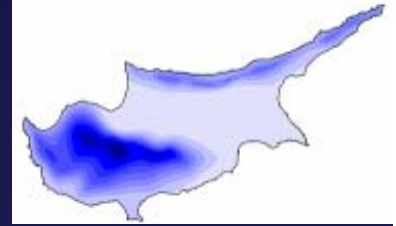

WL | Delft Hydraulics

Founded in 1927, WL | Delft Hydraulics is an independent consultant and research institute located in the Netherlands. For more than 75 years, WL | Delft Hydraulics has provided clients, at home and abroad, with policy advice and technical assistance on water-related issues.

Clients of WL | Delft Hydraulics include government authorities, policy makers and administrators responsible for the short- and long-term governance of bodies of water and related infrastructures, as well as multilateral agencies, consulting engineers, contractors and industries. WL | Delft Hydraulics has a longstanding reputation for excellence in hydrology, hydraulics, morphology (including sedimentation and erosion), water quality (including polluted sediments) and ecology.

Πρόγραμμα Εργαστηρίου

9:00 - 9:10 *Εναρκτήρια ομιλία και έναρξη του Έργου*

Κος Χριστόδουλος Αρτέμης, Διευθυντής
Τμήματος Αναπτύξεως Υδάτων

Δρ. Αναστασία Κοτρωνάρου, Διευθύντρια
Σχεδίου

9:10 - 9:30 *Εισαγωγή στο Έργο και Ομάδα Μελέτης*

Δρ. Kees Bons, Αρχηγός Ομάδας, WL | Delft
Hydraulics

9:30 - 10:00 *Η Οδηγία Πλαίσιο Περί Υδάτων και η εφαρμογή της στην Κύπρο*

Κος Δημήτρης Αργυρόπουλος, Δ. Αργυρόπουλος
& Συνεργάτες

10:00 - 10:30 *Οι Συνέπειες του Άρθρου 8 της ΟΠΥ*

Κος Ιάκωβος Ιακωβίδης, I.A.CO Σύμβουλοι
Περιβάλλοντος και Υδάτινων Πόρων Λτδ

10:30 - 11:00 *Διάλειμμα*

11:00 - 11:20 *Σχεδιασμός Προγραμμάτων Παρακολούθησης*

Δρ Γεώργιος Κοτζαγιώργης, ENVECO A.E.

11:20 - 11:40 *Ανάπτυξη Ολοκληρωμένων Βάσεων Δεδομένων*

Δρ. Pascal Boderie, WL | Delft Hydraulics

11:40 - 12:00 *Εφαρμογή Προγραμμάτων Παρακολούθησης*

Κος Πανίκος Νικολαΐδης, Νικολαΐδης &
Συνεργάτες

12:00 - 13:00 *Ερωτήσεις και συζήτηση*

what would we like to achieve today ?

- To launch the project
- To inform you on its targets and goals
- and.... to foster co-operation between all stakeholders

Let's make this project a success **TOGETHER** !
